

# ABUBAKAR AFZAL

## SOFTWARE ENGINEER | FULL STACK DEVELOPER

(+92) 306 555 8577 | abubakarafzal643@gmail.com | [Abubakar's Portfolio](#) | [Abubakar's LinkedIn](#) | [Abubakar's Github](#)

### PROFESSIONAL SUMMARY

Software Engineering student at FAST NUCES with hands-on experience in **frontend** and **MERN stack development**. Skilled in building scalable, responsive web applications using React.js, Node.js, and modern JavaScript. Experienced in developing user-centric solutions, integrating APIs, and optimizing performance. Passionate about solving real-world problems through efficient and clean code. Strong collaborator with excellent **problem-solving** and **communication skills**.

### EXPERIENCE

#### Quantum Logics | Web Developer Intern (April 2026 - Present)

- Collaborated with cross-functional teams to develop and maintain web applications.
- Gained exposure to frontend and backend development practices.

#### DeveloperHUB Corporation | Frontend Intern (Nov 2025 - Dec 2025)

- Optimized a modular, responsive eCommerce interface using **React + Vite + Tailwind CSS**, with homepage, hero banners, and category section.
- Architected dynamic product listing & detailed product pages with grid/list views and cart functionality.
- Implemented smooth navigation using **react-router-dom** across Home, Products, Product Details, and Cart.

#### Elevvo Pathway | Frontend Developer Intern (Sep 2025 - Oct 2025)

- Architected 5+ responsive frontend components (sidebar, contact form, landing page, task app, blog component).
- Strengthened skills in **HTML, CSS, JavaScript, ReactJS**, and responsive UI design.
- Engineered clean, reusable components and reduced page load times by 15%.

### EDUCATION

- Bachelor's in Software Engineering (BS-SE)** (2023-2027)  
FAST NUCES Lahore
- Intermediate (ICS)** (2021-2023)  
Government College University (GCU)
- Matriculation (Science Group)** (2019-2021)  
Central Model School Lahore

### PROJECTS

#### AutoSphere React.JS, Express.JS, Node.JS, MongoDB

- A full-stack MERN e-commerce platform for vehicle parts with role-based access for Buyers and Vendors.
- A marketplace for automobile parts, enabling users to discover genuine products and allowing vendors to showcase and manage their inventory on a scalable platform in Pakistan.

#### Mini-LinkedIn React.JS, Appwrite, RTK, Tailwind CSS

- Developed a social networking web application with secure user authentication, dynamic profile management, and full CRUD operations for user-generated posts.

#### ResQ React.JS, Express.JS, Node.JS, MongoDB

- ResQ is a full-stack disaster relief management platform connecting victims, volunteers, donors, and admins for efficient disaster response coordination with real-time location tracking and analytics.

### TECHNICAL SKILLS

- Languages:** C/C++, Java, JavaScript, SQL.
- Frameworks:** React.js, TailwindCSS, HTML5, CSS3, Bootstrap.
- Backend:** Node.js, Express.js.
- Databases:** MySQL, MongoDB, Appwrite, Firebase.
- Tools & Platforms:** Git, GitHub, VS Code, IntelliJ IDEA, Postman, Microsoft SQL Server.
